

Your Impact

Projected Return on Your Investment in Physician-Scientists

Every \$15,000 fellowship can unlock \$750,000+ in NIH funding

A 50:1 return on investment for the research enterprise

PROJECTED IMPACT BY GIVING LEVEL

\$15,000

Fund One Fellowship

- 1 trainee supported through K-award preparation
- 40% chance of K-award success (vs. 25% baseline)
- \$150K-\$250K in K-award funding if successful
- Path to \$500K+ R01 grant within 5-7 years

\$50,000

Fund Prototype Year

- 3 trainees supported
- 1-2 expected K-award successes
- \$300K-\$500K in K-award funding generated
- Proof of concept for sustainable model

\$150,000

Fund Pilot Year

- 10 trainees supported
- 4-5 expected K-award successes
- \$1M-\$1.5M in K-award funding generated
- 501(c)(3) formation completed

\$2,000,000

Named Endowment

- 8-10 fellows supported annually in perpetuity
- 160-200 trainees over 20 years
- 64-80 expected K-award successes
- \$20-30M in NIH funding generated

PROJECTION ASSUMPTIONS

- K-award success rate for REACH fellows: 40% (vs. 25% national average)
- Average K-award value: \$150,000-\$250,000 over 3-5 years
- R01 conversion rate from K-awardees: 50% within 5 years of K completion
- Average R01 value: \$500,000+ over 4-5 years
- Endowment annual distribution: 4-5% of principal

Beyond the Numbers

Each fellow represents discoveries, treatments, and cures that cannot be quantified—
but will transform patient lives for generations.
